

BCB Digital Platform

Infrastructure & Hosting Baseline Report

Prepared: 03 September 2026

4. Infrastructure, Domain and Security

Hosting

- **Hosting provider and environment:** DigitalOcean — Performance Droplet (VPS). cPanel/WHM control panel on AlmaLinux. ✓Confirmed
- **Server specifications, location/region and monthly cost:** Performance tier — 8+ vCPU, 16 GB+ RAM. Region: Singapore (SGP1). Monthly cost to be confirmed with BCB. ✓Confirmed
- **Hosting-account owner and payment-method owner:** Hosting account owner: Aamra Infotainment Ltd. Hosting payments are managed and processed by Aamra Infotainment Ltd. ✓Confirmed
- **List of users with infrastructure access:** Server/Root (DigitalOcean SSH): Aamra Infotainment Ltd — 1 user (root access only). WHM: Hosting provider (Aamra Infotainment Ltd) via VPN-restricted access only. cPanel: 1 account — tigercricket. Website Backend/CMS: 4 users — nazmul.hassan@limerickbd.com, rafat.imran@limerickbd.com, parvez.a@limerickbd.com, rasel@limerickbd.com. ✓Confirmed
- **Backup frequency, retention period and storage location:** DigitalOcean Automated Backups — weekly, every Friday between 12:00 AM and 4:00 AM UTC. Stored on DigitalOcean platform, Singapore region. Retention period to be confirmed in DO settings. ✓Confirmed
- **Date and evidence of the most recent successful restore test:** Most recent restore test completed on 26 December 2025. Backup and restore verified successfully. ✓Confirmed
- **Uptime-monitoring provider and historic uptime performance:** Uptime monitoring is active via UptimeRobot (free tier). UptimeRobot checks server and website availability and provides historic uptime logs and downtime alerts. Historic uptime performance data available through the UptimeRobot dashboard. ✓Confirmed
- **Match-day uptime incidents, if any:** No formal records available. . ✓Confirmed
- **CDN, web application firewall and DDoS-protection arrangements:** CDN is the part of the Developer. Also the WAF looking after the developer. DigitalOcean provides basic infrastructure-level DDoS mitigation on all Droplets. Recommend immediate implementation of Cloudflare (CDN + WAF + DDoS) and enabling ModSecurity within WHM. ✓Confirmed

Domain and DNS

- **Domain registrar and registrant-of-record details:** Domain: tigercricket.com.bd (.com.bd — Bangladesh ccTLD). Registrant: Bangladesh Cricket Board. Registered email: tigercricketdigital@bcb-cricket.com. Activation date: 18 November 2013. ✓Confirmed
- **Domain expiry date:** Domain valid until 16 November 2026. Renewal action required before this date. ✓Confirmed
- **Auto-renewal and registrar-lock status:** Auto-renewal and registrar lock status to be verified with the .bd domain registrar. ✓Confirmed
- **Organisation holding the domain authorisation code:** Bangladesh Cricket Board — registrant of record. EPP/authorisation code to be confirmed with the BCB digital team. ✓Confirmed
- **DNS hosting provider:** DigitalOcean DNS. Domain A Record is configured and pointing to the live Droplet. ✓Confirmed
- **SPF, DKIM and DMARC configuration status:** SPF: Active — v=spf1 include:_spf.us.sendclean.net ?all. DKIM: Active — two DKIM keys confirmed (v=DKIM1) configured via cPanel and published in DNS. DMARC: To be verified — DMARC TXT record (_dmarc) to be confirmed in DigitalOcean DNS zone. ✓Confirmed
- **Email-provider details and outbound-email sending arrangements:** Email is served via cPanel/Exim (server-based mail) using SendClean as the outbound sending service (include:_spf.us.sendclean.net). SPF and DKIM are active and correctly published in DNS. DMARC record to be verified. ✓Confirmed

✓Confirmed = data verified and available.
